Duration with dates: One Day **11/01/2018**

Contact details of the teacher /Agencies involved: Dr Joshi Prasad

Report: Kamala Education Society's Pratibha College of Education, Chinchwad, Pune way organized Bahishal series on Yashwantrao Chavan of Savitribai Phule University, Pune. The three days from 11 Jan to 13 Jan 2018 resource persons gives lectures on different subjects. On first day Dr. Joshi Sir gives lectures effective teaching of teacher. They explain student's teachers how to teach effectively in classroom. Teacher should be friend, guide and philosopher for student. An effective teacher should always establish support with their students. Establishing interpersonal relationship with students is crucial to form a trusting bond with each student. Effective teachers should be available outside of class to answer questions and provide additional help to students.

Teachers have effective discipline skills, good classroom management skill, good communication skill, rich & deep content knowledge is very essential qualities. Great teachers create passion as well as purpose. For effective teaching use different strategies, methods, techniques.

Joshi sir explains the teaching skills to student teacher. Questioning, explanation studies variation, examples these are basic important skill for effective teaching how to motivate stud teaching-learning process. Now a day in 21" century teacher have high qualities & skills for effective teaching Technology based Education has been started now so technologically skills also very important. Teacher's clarity according to content, classroom discussion is important for grasping new content & concepts. Students also need to be given opportunities to provide feedback to the teacher so that teacher can adjust the learning process, materials and instruction according. When we provide students with time and space to be aware of their own knowledge and their own thinking, student ownership increases. As like that the Joshi sir effectively gives lectures on how to teach in classroom.

Gyan Vigyan Vachan Chalval By Dr.Charushila Patil on the topic "Wise and otherwise" a book written by Sudhamurthi.

Madam gave an example of difference between a teacher and a station master and explained that station master, masters the train and teacher train the mind, and she has explained that How the literature can give you the experience of being beggar orating in the book of wise and otherwise there is a boy named Hanumantappa. He wanted to become a teacher and he got help from Sudha Murthy but he did not use his 2 month fees due to the vacation in the college, and returned 2 months fees back to the office of Sudha Murthy In her book she has mentioned his loyality towards others or the donar.

Another story was about three nervous boys with whom she met in the student hostel in a function where she was invited as the guest lecture. After function or programme she was interacting with the student, where she came across with three nervous boys who were in need of financial help. At first she refused to do the help but indirectly she paid their fees and helped them to complete their education. After long time she met them again while travelling to America. She wanted purchase a saree to her friend and entered or visited one of the shop nearby airport and took a saree which was display on the entrance then she requested to get a same saree. Suddenly she met with a manager and he called her inside the cabin and explained that she was one of the student with whom she met 10 years back in the College. And she came to know that she helped her indirectly and due to that he is helping poor or those who are in need of him. And packed two sarees and some money which she was paid him at the time of college. By this incident she got emotional and felt herself great.

After sometime she met a friend she encouraged her to go for the doctor for knee check up and she met the same doctor with whom she met and he charged her 300 rupees instead of 100 rupees. She got shock and there was a difference between two of them hence she say about the wise and the otherwise.

Report:

In the personality development lecture, the discussion primarily focused on understanding the concept of personality, personality traits, and personality tests. Personality was defined as a combination of characteristics that define an individual's distinct patterns of thinking, feeling, and behaving. Personality traits were discussed as stable and enduring qualities that influence our behavior across various situations. Personality tests, such as the Myers-Briggs Type Indicator (MBTI) or the Big Five Personality Traits, were highlighted as tools to assess and categorize different personality traits. These tests can offer insights into our strengths, weaknesses, and areas for personal growth. The lecture also included interactive activities designed to help participants explore their own personalities. One such activity involved drawing an image that symbolized their personality traits. This creative exercise allowed participants to reflect on their self-perception and express it visually.

6. Online assessment of learning Report:

Due to covid – 19 guide lines, the school/colleges were closed and as far university instructions online simulated teaching was arranged by skill-in—teaching in-charges .As we know in stimulated teaching, one student teacher who is to practice classroom teaching skills may act as a teacher and rest of the class can act as students. Teacher can act as an observer and record the performance and provide feedback later. The feedback from students and the teacher helps students teacher to recognize his/her weak points of teaching and she/he focus on improving that. In the same way online stimulated teaching was arranged and proper feedback was given timely. Pupil teachers are instructed and trained for their internship and during internship their learning was assessed online.

Practice Lesson Series

Practice teaching is a key component of the undergraduate teacher training Programme. During this period the student teacher gets to translate the skills and theory learnt into reality through actual classroom teaching. This course is for 2credits (50 marks).
